Thomas Gricus, Valedictorian

Thomas will be attending Marquette University in the fall and majoring in Computer Science. Mr. Enstrom was his favorite teacher because “It was my first really hard class and it taught me how to study.” He is most proud of the friends he has made

here at EPCHS, and was involved in Swimming, Diving, Mathletes, Scholastic Bowl, Golf, and NHS. In 10 years he wants to be somewhere in the tech industry making sure ethics are being considered as new technology is created.

John Bledsoe, Salutatorian

John will be attending the University of Illinois at Urbana Champaign this fall and majoring in Electrical Engineering. In ten years, he sees himself working as an electrical engineer, however he does not know which field just yet. Looking back, his greatest accomplishments at EPCHS are being the salutatorian

CLASS OF 2022

Caroline Duffy plans on attending Illinois State University next year where she will study conservation biology. Caroline's favorite EPCHS teacher is Mr. Knapik because his passion for biology was inspiring and convinced her to study biology in college. Caroline's favorite memory at EPCHS is hitting

a home run during her senior year of softball. Caroline was involved in multiple extracurricular activities such as student leadership, government, swimming, softball, snowball, and newspaper. Within the next ten years, Caroline will hopefully be living with lots of dogs.

Mr. Enstrom was Julian's favorite teacher because he was "very funny, super understanding, and helped me a lot with improving my writing." Matt Summers will be attending Western Michigan University in the fall where he is planning on majoring in Vocal Performance. Amy Kazin has been a huge help to Matt as her guidance has helped him every single year at EPCHS. Although he has been involved in Choir, Band, Theater, Bowling, Baseball, Mathletes, Newspaper,

Game Club, Madrigals, and Unaccompanied Minors he feels that his greatest accomplishment is "making it into the Illinois All-State Choir." He is most proud of "not living with the regret of not doing something." In 10 years, Matt would like to be singing professionally and running his own business.

Mary Marcosa will be

spending her freshman year close to home at Moraine Valley studying either Illustration or Art Education. Mrs. McArthur was her favorite teacher because "She just gives off the best vibes ever. She's so nice and goofy." Mary was very involved in Art Club at EPCHS. Being part of the club no doubt helped her win the outstanding Art student award at Awards night, which she considers her greatest high school accomplishment, along with all the meaningful relationships she has made throughout high school. In ten years she sees herself "living in a cute little house with a cute little dog working on cute little art stuff."

Cathleen Rech will be attending the University of Arizona in the fall and majoring in Animal Science. Mr. Knapik was her favorite teacher at EPCHS because he "always made learning fun [he] helped me so much!" She is most proud of being named Senior Science Student of the Year because she

really enjoys science and is looking forward making it her career. She was a part of the Science Olympiad, Scholastic Bowl, Choir, Student Leadership, Mathletes, Yearbook, NHS, Theater, Volleyball, Dance, and Swim at EPCHS. In ten years she hopes to be an animal shelter veterinarian.

TOP TEN PERCENT

Megan Valentino

plans on attending St Louis University where she will study business. Megan's favorite teacher at EPCHS is Mr. Knapik. Megan states, "He made biology interesting and made me feel like he actually wanted me to succeed, not just going through the motions of following the same

lesson plans year after year." Megan's greatest accomplishment at EPCHS is passing all of her AP tests. Megan's extracurricular activities at EPCHS were soccer and snowball. Megan has no clue what she plans on doing ten years from now but will hopefully have something figured out.

Zach Meyers

will be studying Computer Science at DePaul University in the fall. Mr. Knapik has been his favorite teacher at EPCHS. Zach says, "He gave me such an enjoyable experience and made science something that I genuinely think I would pursue a career in." He is most proud of remaining within the top ten percent of students throughout his four years in high school. He was involved in Soccer, Mathletes, and Science Olympiad, and hopes to be traveling the world and enjoying life in ten years.

Isabella Martinez will be attending Dominican University in the fall with an undecided major. Mrs. Shields and Mr. Enstrom were her favorite teachers at EPCHS. According to Isabella, they both "knew how to teach class while simultaneously making it interesting and fun, even if the material wasn't." Isabella was involved in International Club, Scholastic Bowl, Chess, and Newspaper during her

time in high school. She is most proud that she was able to meet the challenge of taking and passing college-level courses while still in high school. Isabella hopes to pursue a career "in which I am passionate about and in which I am able to help serve my community." In ten years, she wishes to have been more successful and accomplished than she can even imagine now.

Yulina Lopez will be attending Northern Illinois University this August majoring in Biomedical Engineering. Senora Shields was her favorite teacher because she was "a teacher I could always count on. She always treats everyone with respect and cares for all of her student as if we were her own. I always had fun in her class and loved all the music she had us listen to."

Yulina's greatest accomplishment was challenging herself by taking and passing AP classes and getting the valuable practice for college from them. She was involved in Soccer, International Club, and the Science Olympiad during her four years at EPCHS. In ten years she plans on having a career as a biomedical engineer and having a family and a home.

Tyler Kirts will be studying Natural Resources and Environmental Science at the University of Illinois Urbana/Champagne this fall. His greatest accomplishment at EPCHS has been all the time he had spent with the student government during the annual Homecoming celebrations, as well as his time spent with Student Leadership and as a SGL with the annual Snowball retreat. Picking a favorite teacher is an impossible task for Tyler because he has had "so many great teachers the last four years, but I

would have to say my top three are Mr. Knapik, Mr. Enstrom, and Ms. Kuelzo." Tyler was very involved in high school, he was part of the Chess Club, the Science Olympiad, Scholastic Bowl, Swimming and Diving, he was the manager of girls Swimming and Diving, Golf, Student Government, Student Leadership, Principal's Advisory, and NHS. In ten years, he will hopefully be a successful Environmental Scientist "helping the planet heal from the torment we've been putting it through.

Denisa Neda will be attending the University of Illinois at Chicago (UIC) in the fall where she plans on majoring in Nursing. Denisa is very proud that she was able to maintain her grades after moving here where she has been involved in Service Club and NHS. She plans to be traveling in ten years' time.

Nathan Johnson will be attending Iowa State where he will be majoring in Engineering. Senora Shields was his favorite teacher because "she cared and you could tell that. Her class was never boring and she always tried to make it exciting. Most importantly she listened to what I had to say and that's something I recently realized to be rare." His greatest accomplishments at

EPCHS were being awarded the Mustang Pride Award, and being named All-Conference in Football and an Academic All-State for football. Nathan was a part of the football team and NHS during his time at school. And "Just like Pat Tillman I don't think that far ahead, I play things by ear." is what he had to say when asked about his ten year plan.

OF CLASS OF 2022

Natalie Galindo

Natalie will be attending DePaul University where she will be studying Neuroscience. Mr. Knapik was her favorite teacher because "he was genuinely someone that made me want to learn. He always made me laugh, and I look up to him. Although he jokes around all the time, he is one of the

most caring and genuine people I've ever met." Natalie has several fond memories of high school, but a few that stood out are her inclusion on the Top 10% of the class list, and winning the annual "March off" where marching band students must follow the commands of the director until on is left standing. This is something she had been

dreaming of since freshman year. She has been involved in Colorguard, NHS (where she held the position of Secretary), Student Government, and Theatre. In ten years she plans on continuing with her medical residency with the hopes of becoming a neuro-ophthalmologist.

Tristan Wagner will be attending Moraine Valley Community College and studying Welding in the fall. Mr. O'Connor was his favorite teacher because "he has taught me so many new things that I will use in my future. The projects that he assigned us were amazing because we made things that

we can bring home to use. He also helped me by deciding what I want to do after high school." Getting into the top 10% and being able to attend the straight A luncheon every year were some of the highlights of his four years at EPCHS. He was a member of NHS, Student Government, Student Leadership, Theater, Band, Soccer, Bowling, Prin-

icipal Advisory, SSC Science Competition, Girls Soccer Manager, Art Club, Newspaper, Service Club, Science Olympiad, Choir, Snowball, Theater Crew, Wood Club, and Madrigals. In 10 years he hopes to be joining the IUEC Elevator Constructors Local 2.

Alexis Elwood will be spending her next few years at the University of Iowa where she will major in Business Law. Her favorite teacher throughout high school has been Senora Shields. Alexis says that she "goes out of her way to make sure every student is comfortable and learning as much as they can while cheering for them the

whole way. I learned so much from Señora: a whole new language (Spanish) of course, as well as so many genuine life lessons that I vehemently feel I'll use throughout the course of my adult years." Alexis has been part of the Girls Swim and Dive team, the Mathletes, the Science Olympiad, Choir, Theater, NHS, and Student Govern-

ment, while her greatest accomplishment from EPCHS was being a two-time state qualifier for Mathletes. In ten years, she plans on being a few years into her career as a corporate lawyer and "hopefully making enough money to pay off all the student debt I'm going to rack up."

Leah Thomas is currently undecided about which college she will be attending. She is interested in pursuing a degree within the field of science.

Annel Valenica Soto will be attending Moraine Valley in the fall and pursuing a degree in Health Information Technology.

Madelyn Schaffrath will be attending the University of Arizona majoring in Astronomy. She was involved in Color Guard and Snowball at EPCHS.

- Joshua Marley

Freshmen year, when that big email was sent out by a senior to the whole school. Everyone was replying and making jokes. I remember one thing someone said was "party at McCarthy's". Which was hilarious.

- Siobhan Power

My favorite memories of high school have always been with the bowling team. To pick a specific is hard but, one that sticks out in my mind is the last banquet I was at for the bowling team. I had so much fun hanging out with my team and celebrating our season and was looking forward to the next. I didn't know then that in that moment that it would be my last time being a mustang. Picking this as my favorite memory sounds weird but I chose it because I think about it often. I may not have spent my senior year at EP but I did spend 3 amazing years there, making friends and being a part of a team. I missed being at EP my whole senior year but reflecting on my time there has helped me miss it a little less. High School really does go by fast so enjoy the time you have before it's gone, because you never know how much you'll miss it and before you know it you'll be saying goodbye. Shout out to coach Fundukian and coach Mike, the best bowling coaches out there:) Once a mustang always a mustang!!

- Jessica Rojas
